**FITNESS STANDARDS
FOR CERTIFICATION BY WAIVER OF
PREVIOUS TRAINING PROGRAM
ENTRANCE**

Prior to entering a Certification by Waiver of Previous Training (CBW) Program the student must demonstrate a minimum fitness level as measured by the following battery of two tests. These tests are based upon the 50th percentile as established by the Cooper Institute. A standard protocol is explained for each test. Each student will be tested TWO WEEKS prior to the first day of the training program. Those students who do not meet the minimum standard will be dismissed and rescheduled for a subsequent academy.

Agility Course #1 and #2 must be successfully completed in the time required for graduation from the basic training program during the CBW program and are NOT used as an entrance test

Retired certified officers are exempt from the physical fitness and agility requirements.

ENTRANCE FITNESS STANDARD

Complete medical exam packets (LEA-3) must have been received and final clearance approved prior to Physical Fitness testing being administered by Academy staff.

Tests are not required to be administered in the order listed. All fitness scores are at the 50th Percentile as mandated by 10.29.6.8 NMAC

Equipment: A stopwatch or clock with a sweep second hand; an indoor or outdoor track or another

suitable running area measured to 1.5 miles and 300 meters; testing forms to record data.

1. The student should refrain from smoking, chewing tobacco, or eating for two hours preceding the test.
2. Allow adequate time prior to the test for stretching and proper warm-up exercises.
3. During the administration of the test, the students will be informed of their lap times. If several students run at once, their individual times at the finish will be called out and recorded later.
4. An important consideration at the end of the runs is the "cool down" period. The students should be cautioned about *not* sitting or standing stationary after the run to prevent venous pooling. They should be instructed to walk at least an additional five minutes to enhance venous return to aid and assist in recovery.
5. The student should remember to properly stretch before and after each exercise to prevent any injuries.

EXIT AGILITY STANDARD

All listed EXIT agility scores are set at the times mandated by 10.29.6.8 NMAC. Students MUST meet or exceed these standards prior to receiving certification.
